GameStop Reports Second Quarter 2009 Results

Software Growth Expected to Rebound in Second Half

GameStop Gains Over 2% Market Share in Second Quarter

GRAPEVINE, Texas--(BUSINESS WIRE)--August 20, 2009--GameStop Corp. (NYSE: GME), the world's largest video game and entertainment software retailer, today reported sales and earnings results for the second quarter ended August 1, 2009.

GameStop sales were \$1.74 billion, a 3.7% decrease compared to sales of \$1.80 billion in the prior year quarter. Despite gaining over 200 basis points in new video game market share during the quarter, comparable store sales decreased 14.1% due to lower new console unit sales, a lack of strong new software titles compared to last year's record releases and customer caution due to the continued weak economy.

The top five selling games during the quarter were THQ's UFC 2009 Undisputed, Activision's Prototype, EA's Fight Night Round 4 and NCAA Football 2010, and Atari's Ghostbusters.

Net earnings were \$38.7 million, representing the second highest summer quarter in GameStop history, a 32.3% decrease compared to net earnings of \$57.2 million in the prior year period. Diluted earnings per share were \$0.23, compared to \$0.34 in the prior year quarter, when earnings per share grew 162%.

"Due to the effects of the recession and strong prior year comparisons, the video game industry experienced a sharp decline in consumer spending during the quarter," said Daniel DeMatteo, GameStop CEO. "Looking ahead, as the new title release schedule improves, we expect positive earnings growth in the back half of the year."

Updated Guidance

Weak trends in consumer spending related to on-going economic uncertainties, and some key new title slippage such as Bioshock 2, StarCraft II and Splinter Cell: Conviction, have prompted GameStop to forecast a lower and widened earnings range for the remainder of the year. In spite of these challenges, new software sales in the second half are expected to increase over the prior year period, led by highly-anticipated title releases such as Call of Duty: Modern Warfare 2, Assassin's Creed 2 and Halo 3: ODST.

For the third quarter of fiscal 2009, GameStop is forecasting diluted earnings per share to range from \$0.27 to \$0.33, as compared to \$0.28 in the prior year period. Comparable store sales are projected to range from -11.0% to -6.0%.

For the fourth quarter of fiscal 2009, GameStop is forecasting diluted earnings per share to range from \$1.47 to \$1.65, as compared to \$1.39 in the prior year period. Comparable store sales are projected to range from -7.0% to -1.0%.

For fiscal 2009, GameStop is lowering diluted earnings per share guidance from the previously communicated range of \$2.83 to \$2.93 to a range of \$2.40 to \$2.64, representing annual EPS growth of flat to +10%. Comparable store sales are now projected to range from -8.0% to -4.0% in fiscal 2009.

We now expect to generate free cash flow (a non-GAAP measure of operating cash flow less capital expenditures) of approximately \$400 to \$425 million, after having invested \$175 million in capital improvements, including the opening of approximately 400 new stores worldwide.

Note that guidance does not include debt retirement costs or merger-related expenses.

Safe Harbor

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may include, but are not limited to, the outlook for fiscal 2009 and beyond, future financial and operating results, projected store openings, the company's plans, objectives, expectations and intentions, and other statements that are not historical facts. Such statements are based upon the current beliefs and expectations of GameStop's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: the inability to obtain sufficient quantities of product to meet consumer demand; the timing of release of video game titles for next generation consoles; the risks associated with expanded international operations and the integration of recent acquisitions, including Micromania; the impact of increased competition and changing technology in the video game industry; and economic and other events that could reduce or impact consumer demand. Additional factors that could cause GameStop's results to differ materially from those described in the forward-looking statements can be found in GameStop's Annual Report on Form 10-K for the fiscal year ended January 31, 2009, filed with the SEC and available at the SEC's Internet site at http://investor.gamestop.com.
